Professional Summary

Results-driven **Technical Project Management Professional** experienced in leading complex implementations across enterprise systems, SaaS, and software delivery. Proven ability to manage high-volume portfolios, translate business requirements into technical solutions, and navigate **APIs, integrations Machine Learning, data flows, and cross-functional delivery**. Recognized for taking ownership of complex and accelerated implementations, solving technical roadblocks, and driving projects from scope through execution

Technical Skills

AI/ML: Machine Learning · GenAI · LLMs · Statistical Modeling

Programming: Python (Pandas, NumPy, Scikit-learn, cv2) · SQL · JavaScript · C# · Java · R

Systems & Integration: REST APIs · API/Data Integration · System Integration · SaaS · Oracle Utilities · SDLC · QA/Testing

Leadership & Delivery: Project Management · Agile/Scrum · Requirements Analysis · SOW/BRD · Technical Documentation · QA Testing · SDLC · Oracle Utilities · System Development

Tools: JIRA · Confluence · Power BI · SAP Reporting · AWS · GitHub, Next.js

Language: English (Fluent), Hindi (Native), French (B1-B2)

Work History

Implementation Project Manager

March 2024 - Present

Paymentus, Richmond Hill

- Lead a high-volume portfolio of **complex FinTech enterprise SaaS implementations**, regularly carrying one of the team's highest levels of effort (LoE) and a high concentration of large, technically complex projects
- Helped **clear an ~80-project implementation backlog** through structured scoping, prioritization, requirements analysis, and accelerated delivery, including implementations completed in approximately **two weeks**
- Serve as a primary technical point of contact, translating client requirements into **API and system integration solutions** and developing SOWs, integration specifications, project timelines, and technical implementation plans.
- Independently troubleshoot **API, data-flow, and integration roadblocks**, coordinating developers, IT architects, vendors, and clients across complex and new-vendor implementations.
- Established standardized **implementation and customer portfolio management processes**, while mentoring junior team members and driving continuous improvement across project delivery.

Business Systems Analyst

September 2021– March 2024

Toronto Hydro, Toronto

- Progressed across release management, project coordination, and business systems analysis for enterprise utility initiatives, including **Oracle Utilities Analytics (OUA)** and ITIS decommissioning
- Developed **System Design & Specifications, BRDs, requirements documentation, and Current/Future State analyses**, supporting project intake, budget analysis, and technical solution definition across architects, vendors, and business stakeholders
- Scheduled and tracked deployments across **12+ enterprise initiatives** and performance-tested **20+ SAP reports using Power BI**, supporting CC&B/NMS integration QA, RAC failover, and SIT/regression testing
- Streamlined release management procedures, reducing technical-hire onboarding time by **30%** while improving consistency across enterprise technology delivery

Software Developer

January 2021 – August 2021

InnovFin Consulting Inc, Peterborough

- Developed blockchain functionality using **AWS, Solidity, and JavaScript**, enhancing company platforms with decentralized capabilities
- Developed web applications using **Java, Spring, and Angular**, collaborating with cross-functional teams to define requirements and deliver software solutions
- Designed and delivered an **Augmented Reality application using Spark AR**, taking the project from concept through implementation

Education

Trent University

BSc Honours in Computer Science

(Specialization in Data Analysis and Software Engineering)

GPA: 88.43%, | President's Honor Roll | 5 Dean's Honor Roll | 4 Certificate of Excellence

Peterborough, Ontario

January 2019 – April 2023

Projects

Real-Time CV Hand Tracker

Python · OpenCV · MediaPipe · Machine Learning | <https://github.com/yunamishra/cv-hand-tracker>

Built a real-time hand gesture recognition system using OpenCV and MediaPipe, training a **Random Forest classifier on extracted hand landmark features**.

KPI Dental Analytics Dashboard

Python · SQL · JavaScript | <https://github.com/yunamishra/KPI-Dental-Dashboard>

Led a 4-member software engineering team to build a web-based dashboard transforming clinic operational data into interactive **KPI models and visualizations**

Tesla & GameStop Stock Analytics

Python · yFinance · Web Scraping · Data Analysis & Visualization | <https://github.com/yunamishra/Tesla-and-GME-Stock-Revenue>

Analyzed historical stock and revenue data for **Tesla and GameStop** using Python, yFinance, and web scraping, applying data extraction, cleaning, and visualization techniques to examine financial trends and market performance

Certifications

IBM Data Analyst Professional Certificate - IBM | 2025

Credential: [6c247fb977e6fdf2d5bd2eaf81bb42d753ef905f433092afe9939621c212367e](https://www.credentia.com/credentials/6c247fb977e6fdf2d5bd2eaf81bb42d753ef905f433092afe9939621c212367e)

IBM Generative AI - IBM | 2025

Credential ID: UC-1eb5d6c6-0729-4689-805f-a718bb1a64f6

Business Analysis Fundamentals - endorsed ECBA, CCBA, CBAP | 2023
